Geothermal Heat Pump with Gas Back-Up - Check List

Memb	ember/Customer Name					
Memb	er/Customer Address					
Make		Model #		Serial #		
Contra	octor Name		Servic	e Date	Gas	Furnace (Btu/hr)
Check Off If Done	If any item cannot be checked temperature/pressure Pete's	· · · · · · · · · · · · · · · · · · ·	an exp	olanation	n. (For exa	ample, "No
	Check air filter and change if required.					
	Check relays and contactors and for loos	se electrical connections.				
	Calibrate thermostats.					
	Clean Indoor coil.					
	Check drain pan and trap for blockage o	r leaks. Flush the condensate drain.				
	Check blower assembly for proper opera	ation, or damage, and lubricate as requi	red.			
	Check static air pressure and record.				in. WC	
	Check air supply temperature in heating mode and record. Calculate supply – return temperature difference.				Sup-Ret Δ °F	
	Check air return temperature in heating mode and record. Compare temperature difference to manufacturer specifications.				Mfg. Spec. Δ °F	
	Check air supply temperature in cooling mode and record. Calculate supply – return temperature difference.				Sup-Ret Δ °F	
					Mfg. Spec. Δ °F	
	Compare static pressure and temperatures to manufacturer specifications and adjust blower speed settings if required and record final pressure and temperatures.					equired and record final
	Check water pump for proper operation	, or damage, and lubricate as required.				
	Measure water pump volts and record.	Compare to manufacturer specifications	S.		Volts	Mfg. Spec. Volts
	Measure water pump amps and record.	Compare to manufacturer specification	IS.		Amps	Mfg. Spec. Amps
	Clean water strainer.					
	If open loop and economically available,	, record dynamic water level of producti	ion well a	and record.		ft.
	If open loop and economically available,	, record dynamic water level of injection	n well and	d record.		ft.
	If open loop and economically available, record static water level of production well and record.				ft.	

Geothermal Heat Pump with Gas Back-Up - Check List

If open loop and economically available, record return pressure to injection well and rec	ft.			
Check loop water pressure in and record.	psi			
Check loop water pressure out and record.	Check loop water pressure out and record.			
Calculate loop water flow rate and record. Compare to manufacturer specifications.	GPM	Mfg. Spec. GPM		
Check loop supply temperature in heating mode and record.	-	°F		
Check loop return temperature in heating mode and record.		°F		
Calculate the heat of extraction and record. Compare to manufacturer specifications.	Btu/hr	Mfg. Spec. Btu/hr		
Check loop supply temperature in cooling mode and record.		°F		
Check loop return temperature in cooling mode and record.		°F		
Calculate the heat of rejection. Compare to manufacturer specifications.	Btu/hr	Mfg. Spec. Btu/hr		
If air or water temperature deltas are not per manufacturer specifications, measure refrand record temperatures if charged.	rigerant levels and cha	rge as required. Recheck		
If closed loop, check water loop PH, antifreeze, and corrosion inhibitor. Correct if necess	sary.			
If closed loop, repressurize water loop to manufacturer specifications.				
Measure compressor volts and record. Compare to manufacturer specifications.	Volts	Mfg. Spec. Volts		
Measure compressor amps and record. Compare to manufacturer specifications.	Amps	Mfg. Spec. Amps		
If desuperheater, check supply temperature and record.		°F		
If desuperheater, check return temperature and record.		°F		
Inspect heat exchanger.		1		
Check and clean pilot light or igniter, flame sensor and gas valves.				
Check operation of the safety limit switch.				
Check the gas burner flame and adjust the flame height as required.				
Check back-up gas heat staging.				
Check air supply temperature in back-up heating mode and record. Calculate supply – retemperature difference.	eturn °F	Supply-Return Δ °F		
Check air return temperature in in back-up heating mode and record. Compare tempera difference to manufacturer specifications.	ature °F	Mfg. Spec. Δ °F		
Check and record cut-out or switch over temperature if applicable.		°F		
If humidifier, clean, check control and adjust as required.		1
